ABOUT DIGITAL PRESENTATIONS

Digital presentations open a new world of possibilities for encountering music and art for your audiences. Either as a standalone offering or complementary addition to a live booking, digital performances combine sound and images in innovative, entrancing ways, and offer a new level of intimacy with the artist and their creation. Audiences can speak to artists directly from their living room in a streaming Q&A or and enjoy an up-close and personal video angle of a musician's fingers on their instrument during a performance. The future is live - and online. Programme the best of both worlds in your upcoming season.

COLLECTIF9

classical string band

Fully produced full-length "cine-concerts" available for rental

The first film-concert in collectif9's series, **RITUÆLS** is a mystical artistic experience confronting the infinitely large and the infinitely small, the cosmic with the microscopic, delicately questioning our place in the universe and in relation to our environment.

The Night of the Flying Horses is the next film-concert available for rental from collectif9. This cine-concert offers a panoply of musical flavors from all over Europe: music inspired by the Romani musicians of more than 500 years ago, the Baroque extravagance of François Couperin, and classical music from the 21st century.

WATCH

Barzcablog on RITUÆLS:

"It's therefore quite marvelous to discover something displaying genuine mastery, created with a deep understanding of the issues facing the audience."
